## About Creative

Creative Associates International works with underserved communities by sharing expertise and experience in education, economic growth, governance and transitions from conflict to peace.

Recognized for our ability to work rapidly, flexibly and effectively in conflict-affected environments, we are committed to generating long-term sustainable solutions to complex development problems.

Started by four enterprising women with diverse backgrounds, the organization has grown to become one of the leaders among the U.S. private sector implementers of global development projects. Creative Associates International is minority owned and operated.

## The Mission

To support people around the world to realize the positive change they seek.

## Global Reach

Based in Washington, D.C., Creative Associates International has active projects in more than 15 countries from the Middle East to Asia, Africa and Central America. Since 1977, it has worked in nearly 90 countries and on almost every continent.

## A Holistic Approach

Creative's Economic Growth, Education for Development and Communities in Transition teams work to holistically support communities as they move from conflict and fragility to peace and prosperity.

Our staff brings expertise in workforce development and youth employment, citizen security, education in conflict, technology for development, stabilization and more.
